

PROJECT 3.2: CLIMATE EXTREMES: POTENTIAL FORECAST SKILL AND CLIMATE CHANGE SCENARIOS

Principal Investigator

Mark Palmer, CSIRO Mathematics, Informatics and Statistics, PMB 5, Wembley, WA 6913 (Ph: 08 9333 6203; Fax: 08 9333 6121; Email: Mark.Palmer@csiro.au)

Key research findings and highlights

Milestone 3.2.2: Potential forecast skill for extreme rainfall at seasonal timescales

Report complete and submitted.

Milestone 3.2.3: Dissemination of climate change scenarios for seasonal extreme rainfall as regional maps

This task is being carried out with Milestone 2.4.10. See description of activities for 2.4.10.

Milestone Reports

Milestone 3.2.2: Report on the Potential forecast skill for extreme rainfall at seasonal timescales

Report complete and submitted.

Milestone 3.2.3: Dissemination of climate change scenarios for seasonal extreme rainfall as regional maps

This task is being carried out with Milestone 2.4.10. See description of activities for 2.4.10.
